Luke in Rebel Alliance flight suit

Luke Skywalker

Luke Skywalker grew up on a moisture farm on Tatooine, where he honed his flying skills in landspeeders. After the farm was destroyed by Imperial troops, Luke decides to fight against the Empire. As an X-wing fighter pilot, Luke destroys the Empire's first deadly Death Star. Although Luke learns that his father is Darth Vader, he uses his Jedi skills against his father and the dark side of the Force.

R2-D2

R2-D2 is an astromech droid that has seen plenty of action against the Empire. The small droid is a big help to Luke Skywalker. He helps keep Luke's X-wing fighter flying. R2-D2 communicates in an electronic language that sounds like beeps, chirps, and whistles to humans.

STAR WARS

In a galaxy far, far away, a band of brave Rebels battles the evil Empire. Led by the sinister Darth Vader, the Empire tries to crush the Rebel Alliance. From hidden bases throughout the galaxy, Rebel forces strike back. Daring pilots fly X-wing and Y-wing fighters against Imperial TIE fighters and the deadly Death Star. To help stop Vader, Obi-Wan Kenobi trains Luke Skywalker as a Jedi Knight. Luke learns the power of the Force and duels Darth Vader with his lightsaber. But Luke and the Rebels need your help! Battle the Empire on the desert sands of Tatooine, above the ice planet Hoth, and on the forest moon of Endor.

May the Force be with you!

Obi-Wan "Ben" Kenobi

Obi-Wan is a Jedi Knight who has battled the Empire for many years. As a Jedi Knight, Obi-Wan uses the power of the Force to battle evil. Obi-Wan watches over young Luke Skywalker and shows him how to use a lightsaber. He teaches Luke to be a Jedi Knight as he taught Luke's father, Anakin Skywalker.

Biggs Darklighter

Biggs Darklighter is an X-wing fighter pilot for the Rebel Alliance and a good friend of Luke Skywalker. Biggs and Luke both grew up on Tatooine. They raced landspeeders and tagged wump rats in the Jundland Wastes together. Biggs entered the Imperial Space Academy and quickly joined the Rebel Alliance. The two childhood friends now fly together in the Red Squadron.

Darth Vader

Darth Vader is a leader of the Empire, trying to crush the Rebel Alliance. Once a Jedi Knight known as Anakin Skywalker, he turned to the dark side of the Force. Always an excellent pilot, Vader flies a custom TIE fighter against the Rebel forces. He uses the dark side to battle his former teacher Obi-Wan and his Jedi son, Luke Skywalker.

7140 X-wing Fighter

Join Luke Skywalker and the other Rebel pilots on their missions against the Empire. Battle Imperial TIE fighters or a Death Star. Look over the Death Star's plans while the ground crew gets your X-wing fighter ready. There's the signal! With R2-D2 in place, you're ready for take off. R2-D2 navigates a course toward the Death Star.

Look out! TIE fighters at 10 o'clock. Open the wings to attack position and fire your four laser cannons.

7130 Snowspeeder

At their base on ice planet Hoth, the Rebels expect an Imperial attack any minute. Wearing white uniforms, Hoth troopers blend into the snow and ice. They scan the skies with powerful macrobinoculars and a radar dish. In the sky, fly with Luke Skywalker as his snowspeeder searches for Imperial forces. The tough snowspeeder is ready to defend the Rebel base. The pilot can turn the front laser cannons, and the gunner works the rear harpoon.

MOVIE MAGIC

An exciting scene from *Return of the Jedi*, created at ILM

Grant Imahara testing the R2-D2 model

Grant Imahara is a model maker at Industrial Light & Magic (ILM). ILM creates the cool visual effects that you see in movies and TV commercials. At ILM, they make Peter Pan fly (Hook), UFO's crash (Men in Black), and spaceships blast off (*Star Wars*). To create these special effects, ILM uses models and computers.

When he was a kid, Grant really liked two things: space LEGO sets and *Star Wars*. "My favorite LEGO set was the Galaxy Explorer (from 1980), the biggest LEGO spaceship there was. I would also use lots of bricks to build my own spaceships," Grant says.

Now, Grant combines his two childhood interests in his job at ILM. For almost a year, Grant has been working on models for *Star Wars: Episode I—The Phantom Menace*. "Building LEGO sets was good training for me. You learn that building is a system. You know which bricks you need to solve a building problem."

In the new LEGO *Star Wars* TV commercial, Grant plays C-3PO and dances to the LEGO Mania music. While filming the commercial, the LEGO X-wing fighter needed new landing gear.

And just like when he was a kid, Grant looked through some extra LEGO pieces and built some landing gear.

Grant has done about 10 commercials and appearances as C-3PO. It takes him about 30 minutes to get into the suit, and somebody has to help him put it on. "It's like being in a suit of armor, and it's hot inside. The hardest part is that I can't sit down or bend at the waist," he says. But when the lights in the robot's eyes go on and he starts walking around, that's when the fun begins. "It's fun being a character that I know from the movies and seeing the looks on people's faces when they see me."

As a LEGO Maniac, Grant still has his LEGO Galaxy Explorer set and likes the LEGO *Star Wars* models.

Trouble on Tatooine

AT THE BATTLE OF YAVIN, LUKE SKYWALKER DESTROYS THE EMPIRE'S DEATH STAR. THEN, WITH R2-D2, HIS ASTROMECH DROID, LUKE FLIES HIS X-WING FIGHTER TO TATOOINE. LUKE'S MISSION ON HIS HOME PLANET IS TO RECRUIT NEW PILOTS FOR THE REBEL ALLIANCE.

AFTER OUR MISSION, ARTOO, WE'LL HEAD FOR THE ALLIANCE BASE ON HOTH.

BLEEP.

LUKE HIDES HIS X-WING FIGHTER FROM IMPERIAL PATROLS. HE REMINDS R2-D2 TO STAY WITH THE FIGHTER.

I'LL BE BACK TOMORROW. AND, ARTOO, DON'T WANDER OFF INTO THE DESERT. REMEMBER WHAT HAPPENED LAST TIME!

BLEEP.

R2-D2 TRIES TO STAY PUT. THEN HE SCANS THE DESERT WITH HIS SENSORS AND DETECTS LIFE FORMS. THE CURIOUS DROID STARTS ACROSS THE SANDY DUNE SEA FOR A CLOSER LOOK.

WHEN LUKE FINDS R2-D2 MISSING, HE BORROWS A LANDSPEEDER, FIRES UP ITS THREE TURBINE ENGINES, AND FOLLOWS R2-D2'S TRACKS.

I HOPE THE JAWAS DIDN'T GET ARTOO!

...FOUND AN X-WING AND AM FOLLOWING A DROID'S TRAIL. SEND SOMEONE FOR THE FIGHTER.

IN THE JUNDLAND WASTES, R2-D2 DISCOVERS A SECRET IMPERIAL OUTPOST. HERE THE EMPIRE IS COLLECTING MATERIALS FOR A NEW DEATH STAR.

WHEEW

LUKE FINDS R2-D2 IN THE DESERT, AND THE EXCITED DROID TELLS LUKE ABOUT THE IMPERIAL BASE.

GREAT WORK, ARTOO. LET'S GET OUT OF HERE.

BEEP, BOP

...LOCATED DROID'S TRACKS BY THE BASE. AM PURSUING FROM THIS END.

SUDDENLY, LUKE AND R2-D2 ARE SURROUNDED BY IMPERIAL TROOPERS

ARTOO, GRAB MY LIGHTSABER. I HAVE A FEELING I MAY NEED IT.

LET'S TAKE THE PRISONER TO LORD VADER.

DARTH VADER QUESTION'S LUKE ABOUT THE LOCATION OF THE REBEL BASE. THEN HE TRIES TO GET LUKE TO JOIN THE EMPIRE.

YOUNG SKYWALKER, THE FORCE IS STRONG WITH YOU. I WILL GIVE YOU A CHANCE TO JOIN...

NEVER! NOW, ARTOO, MY LIGHTSABER!

WHILE LUKE BATTLES DARTH VADER, R2-D2 PLUGS INTO THE BASE'S COMPUTER SYSTEM AND SENDS A MESSAGE FOR HELP.

YOUR REBEL ALLIANCE IS NO MATCH FOR THE DARK SIDE!

THE FORCE WILL DESTROY YOU, VADER!

THE LEGO MANIAC FLIES A Y-WING FIGHTER DISGUISED AS AN OLD FREIGHTER. HE IS ON A SECRET MISSION FOR THE ALLIANCE WHEN HE HEARS R2-D2'S MESSAGE.

MY MISSION CAN WAIT. I'D BETTER BUILD LIKE CRAZY AND HELP LUKE STOP VADER.

THE MANIAC BUILDS LIKE CRAZY TO RESTORE HIS Y-WING FIGHTER TO FIGHTING SHAPE.

IT'S TIME TO WIN ONE FOR THE ALLIANCE!

DARTH VADER KNOCKS LUKE'S LIGHTSABER OUT OF HIS HAND, AND IMPERIAL SCOUT TROOPERS CLOSE IN!

NOW, YOUNG SKYWALKER, I CONTROL YOUR DESTINY.

I WILL NEVER SURRENDER TO THE DARK SIDE!

THE MANIAC SENDS THE IMPERIAL TROOPERS DIVING INTO THE DUNES WITH A FEW WELL-PLACED LASER BLASTS. BUT DARTH VADER ESCAPES.

THANKS, MANIAC. NOW, LET'S TACKLE VADER!

HANG ON, LUKE! I'LL SCATTER THOSE IMPERIAL SLUGS!

DARTH VADER TAKES OFF IN HIS TIE FIGHTER, WHILE LUKE RACES TO HIS CAPTURED X-WING FIGHTER.

I MUST STOP THAT REBEL PILOT!

IN HIS POWERFUL TWIN ION ENGINE FIGHTER, DARTH VADER QUICKLY CATCHES UP TO THE MANIAC'S Y-WING FIGHTER.

BEEP, BEEP, BEEP

THE REBELLION WILL BE MINUS ONE PILOT.

UH, OH, I'VE GOT VADER ON MY TAIL.....I'M HIT!

WHILE THE MANIAC TRIES TO CONTROL HIS DAMAGED SHIP, DARTH VADER TURNS BACK TO TATOOINE AND PLUNGES RIGHT INTO LUKE'S X-WING FIGHTER.

NOW TO FIND YOUNG SKYWALKER.

I'M RIGHT HERE, VADER!

LUKE LOCKS HIS STARFIGHTER'S WINGS IN ATTACK POSITION AND CONTINUES HIS DUEL WITH DARTH VADER.

WHAT? VADER NEVER RAISED HIS SHIELDS! THANKS, ARTOO.

BLEEP BLEEP CHIRP

THE MANIAC AND HIS DROID MAKE EMERGENCY REPAIRS TO THEIR SHIP AND REJOIN THE BATTLE. DARTH VADER RAISES HIS TIE FIGHTER'S SHIELDS, BUT IT IS TOO LATE.

NEVER COUNT OUT A LEGO MANIAC, VADER! IT'S TIME FOR YOU TO TAKE A SPIN IN SPACE.

DARTH VADER DEFLECTS SOME OF THE LASER BLASTS FROM LUKE'S FOUR CANNONS, BUT HIS TIE FIGHTER GOES SPINNING INTO SPACE.

I WILL BE BACK, AND I WILL USE ALL THE POWER OF THE DARK SIDE AGAINST YOUNG SKYWALKER AND THAT LEGO MANIAC!

WE SENT VADER SPINNING INTO A GALAXY FAR, FAR AWAY, LUKE.

MAYBE, MANIAC, BUT I HAVE A FEELING WE'LL SEE HIM AGAIN.

CLUB MEMBER REVIEW Rob Johnson, Age 10 of Connecticut

The TIE fighter and Y-wing are really cool," says Rob, a real *Star Wars* fan. "They look just like the ships in the movies. I have lots of fun recreating battle scenes from the movies. When the ships get blasted by lasers, you can take off pieces to show the damage. The hatches on both fighters open, so you can put the figures inside." "You can see through the front of the TIE fighter, and it really looks tough with Darth Vader sitting in it, with his saber and helmet. Darth Vader looks just as scary as in *Star Wars*. The Y-wing is really cool too. The twin-barreled laser cannons turn, and behind it is a secret compartment that locks. The Rebel pilot can hide inside in it. Even if you fly the Y-wing upside-down, the compartment won't open. The droid is fun to play with, and it can put things in the storage space behind it."

NEW

Have you ever wanted to design your own LEGOLAND theme park? With the new LEGOLAND computer game coming from LEGO Media, you can!

As manager of the park, you have complete control. You get to decide what buildings to create, where the roads are built, and what rides to use. Build a real working park that includes a driving school, an authentic Fort Legoredo, a miniature LEGO Miniland and dozens of other authentic LEGOLAND rides. All games and buildings are based on those found in real LEGOLAND parks! Once the gates to your park have opened, keep the visiting LEGO mini-figures happy by researching new rides and installing more attractions!

Is your Water Works attraction popular with park visitors? Use LEGOLAND's zoom feature to find out.

The Dizzy Barrels game is more fun than a barrel of wet monkeys.

When the weather gets hot, the mini-figures go panning for gold at the Gold Mine.

This month we'll take a look at some of the hidden surprises in LEGO Loco. Remember that we've listed just a few of the secrets here - LEGO Loco has dozens more for you to find!

Space Shuttle - To build the space shuttle, place two water stations right next to each other. Once you close the toy box, these two buildings will turn into a space shuttle.

Giant Robot - Place a radio station to the right of the left office building with the letters IG at the front. After a second or two, the office building will transform into a giant robot!

Lost Ness Monster - On all four sides of the Lost Ness monster.

To see a spooky surprise, advance the clock to October.
